

CedarWood Food Pantry was packed yesterday, breaking our all-time non-holiday record by serving 84 families, 7 of which were new customers! Some of these new customers came as a result of personal referrals from staff members who became aware of unexpected financial crises and hardships, so we felt very blessed to establish these connections. Customers expressed their sincere gratitude.

CedarWood also served one new community organization named Esther's Place; a day center for homeless women and children based in Everett, WA. We were first contacted by them last week to partner with them by providing food. In particular, they were hoping to get fresh produce which we provided for them in abundance through mid-week pickups. They will now be regularly receiving produce after our weekly pantry operation. Can you sense the pleasure of the Lord?

Abundant blessings!

The CedarWood Team
