NPR: Conspiracies Swirl As Vatican Scandal Engulfs Rome 6/2/12

The scandal over leaked documents that has been engulfing the Vatican is the biggest breach of confidence and security at the Holy See in recent memory.

Known as Vatileaks, the crisis has shed light on a Vatican gripped by intrigue and power struggles like a Renaissance court.

Vatileaks erupted into a full-blown scandal with the publication two weeks ago of a book of Vatican documents alleging corruption and conspiracies among cardinals.

Within days, the Vatican bank president was abruptly dismissed and the pope's own butler was arrested on charges of stealing the pope's correspondence.

237 Accusations of Sexual Abuse With the Catholic Church in Ireland This Year.

Allegations continue to rise. 6/6/12

Ireland's National Board for Safeguarding Children in the Catholic Church (NBSCCC) has revealed that 237 new abuse claims involving 196 priests and members of religious orders have been made within the last 12 months. Ian Elliott, chief executive of the group, says they need more funding to cope with the volume of complaints. He told the Evening Herald, "We noted in our last annual report that we had received a large number of requests for advice both from religious bodies and dioceses. "Existing advisory panels were also providing support, but we took the view that an additional resource to support ordinaries faced with challenging safeguarding concerns should be created

AFP: Pope Admits "Gay Lobby" in Vatican

Administration: Report 5/11/13

VATICAN CITY — Pope Francis has admitted the existence of a "gay lobby" inside the Vatican's secretive administration, the Roman Curia, allegedly exposed during a leaks scandal, according to a Latin American Catholic website.

Back in February Italian media claimed that a secret report by cardinals investigating the leaks included allegations of corruption and blackmail attempts against gay Vatican clergymen, and on the other hand, favouritism based on gay relationships.

"In the Curia, there are truly some saints, but there is also a current of corruption," the pope is quoted as having said during an audience last week with CLAR (the Latin American and Caribbean Confederation of Religious Men and Women).

"There is talk of a 'gay lobby' and it's true, it exists. We have to see what can be done," the 76-year-old pontiff is quoted as saying on the Reflection and Liberation website, which was flagged up by religious news agencies on Tuesday

Reuters: Ex-Vatican Bank Officials Broke Anti-Money Laundering Laws, Prosecutors Say (7/15/13)

ROME, July 15 Prosecutors allege two former top executives at the Vatican bank repeatedly broke Italian laws on money laundering by failing to give sufficient information when ordering multi-million-euro bank transfers, according to judicial documents seen by Reuters.

A report by European watchdog Moneyval last year said the Vatican state, despite some progress, failed to meet some critical financial transparency standards.

The allegations by prosecutors in Rome investigating possible breaches of the rules, which have not yet been made public, are the latest blow to the Vatican bank, which has been under pressure since Italy's central bank ordered Italian banks to enforce strict transparency criteria when dealing with it.

Second Big Quake Strikes Northern Italy In Nearly A Week (5/29/12)

Tuesday's earthquake was centered in the province of Modena, near Bologna. The towns of Mirandola and Cavezzo were closest to the epicenter, civil protection authorities said. Earthquake in northern Italy damages medieval churches and castles.

Witnesses reported on Twitter that Cavezzo was about 70% destroyed. Pictures purportedly from the town, as well as a video stream from Italian newspaper Corriere de la Serra, show damaged and destroyed buildings. Tuesday's quake was followed by dozens of aftershocks. The U.S. Geological Survey recorded one aftershock of 5.6 magnitude.

Justice Announces Record \$13 Billion Settlement with JPMorgan 11/19/13

WASHINGTON — JPMorgan Chase & Co. has reached a record \$13 billion settlement with federal and state authorities, resolving claims over the bank's sales of low-quality, high-risk mortgage-backed securities that collapsed in value during the U.S. housing crisis.

The agreement is the latest chapter in the bursting of the housing bubble.

“Without a doubt, the conduct uncovered in this investigation helped sow the seeds of the mortgage meltdown,” Attorney General Eric Holder said. “JPMorgan was not the only financial institution during this period to knowingly bundle toxic loans and sell them to unsuspecting investors, but that is no excuse for the firm's behavior.”

Deal reached on calming Ukraine tensions

Top diplomats from the United States, European Union, Russia and Ukraine reached agreement after marathon talks Thursday on immediate steps to ease the crisis in Ukraine.

Reached after seven hours of negotiation, the agreement does not set out specific directions for Ukraine's future, but it requires all sides to halt any violence, intimidation or provocative actions. It calls for the disarming of all illegally armed groups and for control of buildings seized by pro-Russian separatists to be turned back to authorities.

Alabama's Supreme Court RECOGNIZED THE PREBORN CHILD IS A PERSON.

In an 8-1 decision, the court rendered a cornerstone verdict that the word "child" in that state's chemical-endangerment statute applies to the born and UNBORN. The Alabama ruling is similar to one handed down last year in *Ankrom v. State*, where the ruling also held that the word "child" includes the "unborn child."

Melinda Gates: 'Gates Foundation Has Decided Not to Fund Abortion'

News)

We should provide all women the information and tools to time and space their pregnancies in a safe and healthy way that works for them. This approach is simple, it works, and it saves lives.

The question of abortion should be dealt with separately. But in the United States and around the world the emotional and personal debate about abortion is threatening to get in the way of the lifesaving consensus regarding basic family planning.

I understand why there is so much emotion, but conflating these issues will slow down progress for tens of millions of women. That is why when I get asked about my views on abortion, I say that, like everyone, I struggle with the issue, but I've decided not to engage on it publicly—and the Gates Foundation has decided not to fund abortion.

TPP Is Right Where We Want It: Going Nowhere

President Obama is on a diplomatic tour of Asia this week and one of his top priorities is the Trans-Pacific Partnership (TPP), a trade agreement that includes restrictive copyright enforcement measures that pose a huge threat to users' rights and a free and open Internet. In particular, he's seeking to resolve some major policy disagreements with Japan and Malaysia—the two countries that have maintained resistance against some provisions in the TPP involving agriculture and other commodities. Despite some reports of movement on some of the most controversial topics during meetings between Obama and Japanese Prime Minister Abe, it seems that the TPP is still effectively at a standstill.

Wikileaks exposes hidden TPP texts confirming long-standing suspicions about the harm the agreement could do to users' rights and a free and open Internet

WikiLeaks released the secret negotiated draft text for the entire TPP (Trans-Pacific Partnership) Intellectual Property Rights Chapter. The TPP is the largest-ever economic treaty, encompassing nations representing more than 40 per cent of the world's GDP. The WikiLeaks release of the text comes ahead of the decisive TPP Chief Negotiators summit in Salt Lake City, Utah, on 19-24 November 2013. The chapter published by WikiLeaks is perhaps the most controversial chapter of the TPP due to its wide-ranging effects on medicines, publishers, internet services, civil liberties and biological patents. Significantly, the released text includes the negotiation positions and disagreements between all 12 prospective member states.

STATES PULLING THE PLUG ON COMMON CORE

If you want to know which Republican governors harbor presidential aspirations, in 2016 or beyond, a good way to find out might be to look at their stance on Common Core.

The controversial effort to standardize education across the 50 states has fallen so far out of favor among conservatives that it's quickly becoming a litmus test for Republicans hoping to one day move up the political ladder.

North Carolina House votes to replace Common Core, Gov. Pat McCrory will sign

The Common Core curriculum standards that dictate what's taught in grade school classrooms across much of the United States are on their way out in North Carolina.

The North Carolina House approved a compromise bill, by a vote of 71 to 34 Wednesday, to rewrite the statewide curriculum to better tailor it for Tar Heel students. Gov. Pat McCrory said he will sign it.

Two more states pull out of Common Core

(6/5/14 Washington Post)

Two Republican governors, Mary Fallin of Oklahoma and Nikki Haley of South Carolina, have just signed laws pulling their states out of the Common Core State Standards initiative amid growing anti-Core sentiment around the country.

Fallin signed the law on Thursday, while Haley did it last week, joining Indiana in officially rejecting the Core. A few other states, including Florida, are considering whether to keep the standards or have already “rebranded” the standards by changing the name and deciding to create their own standardized tests for accountability purposes rather than use the Core tests now being designed by two multi-state consortia.

Missouri Governor Signs Bill to Replace Common Core Standards

(7/15/14)

Missouri Gov. Jay Nixon (D) has signed legislation that provides for a task force to write new education standards that will eventually replace the Common Core in his state.

Nixon's office announced his approval of the measure Monday, the last possible day the governor could take action on bills passed earlier this year, local news KMBC.com reports

Wisconsin - Governor Scott Walker Calls For Legislature to Repeal Common Core Standards

(7/17/14)

Madison — Republican Gov. Scott Walker said Thursday he wants Wisconsin to repeal the Common Core education standards it has adopted along with most other states, making his strongest statement on the issue yet.

"Today, I call on the members of the state Legislature to pass a bill in early January to repeal Common Core and replace it with standards set by people in Wisconsin," Walker said in a written statement.

A Righteous Victory: Supreme Court Rules in Favor of Hobby Lobby in Obamacare Contraceptive Case

The Supreme Court has ruled in a 5-4 decision that a closely-held company can be exempt from contraceptive coverage under the Affordable Care Act.

The closely watched case pitted the administration and its allies, including women's health advocates, against the religious right, which has repeatedly accused President Barack Obama of waging a war on religion in the public square.

MSNBC Live with Craig Melvin, 6/30/14, 10:47 AM ET

How will the Hobby Lobby ruling affect women?

Hobby Lobby stores, an Oklahoma-based, evangelical-owned craft chain with about 13,000 employees, and Conestoga Wood Specialties, a small Mennonite-owned cabinet maker in Pennsylvania, were two of the 49 for-profit companies that said the requirement violated their religious freedom.

DC Circuit Court Ruling Deals Massive Blow to Obamacare

(7/22/14 _____)

A federal appeals court dealt a huge blow to Obamacare on Tuesday, banning the federal exchange from providing subsidies to residents of the 36 states it serves.

A divided three-judge panel on the D.C. Circuit Court of Appeals ruled that the text of the Affordable Care Act restricts the provision of premium tax credits to state-run exchanges. The two Republican appointees on the panel ruled against Obamacare while the one Democratic appointee ruled for the law.

Supreme Court Rules Family-Owned Corporations Are Not Required to Pay for Contraception Coverage (6/30/14 The New York Times)

WASHINGTON — The Supreme Court ruled on Monday that requiring family-owned corporations to pay for insurance coverage for contraception under the Affordable Care Act violated a federal law protecting religious freedom. It was, a dissent said, “a decision of startling breadth.”

The 5-to-4 ruling, which applied to two companies owned by Christian families, opened the door to many challenges from corporations over laws that they claim violate their religious liberty.

FBI: 168 kids rescued, 281 pimps nabbed in sex-trafficking crackdown

(CBS News 6/23/14)

WASHINGTON -- Nearly 170 victims of child sex trafficking, many of whom had never been reported missing, were rescued in the last week as part of an annual nationwide crackdown, the FBI said Monday. Besides the 168 children rescued from the sex trade, 281 pimps were arrested during the same period on state and federal charges. "These are not faraway kids in faraway lands," FBI Director James Comey said in announcing the annual enforcement push known as Operation Cross Country. Instead, he added, "These are America's children." This is the eighth such week long-operation, which this year unfolded in 106 cities. The FBI says nearly 3,600 children have so far been recovered from the streets. "There is no more meaningful work that the FBI participates in than rescuing children," Comey said.

Victory: Google Makes Huge Move to Ban Pornography

In May, Morality In Media had a productive meeting with Google about how they can help protect individuals, families and children from exploitation.

Today, we are seeing the fruits of that meeting.

We listed Google on both our 2013 and 2014 Dirty Dozen List because of their involvement in and profit from pornography in Google Play, Google Ads, YouTube and more.

Google sent an email out alerting their advertisers—particularly pornography and other adult themed websites—that they will be implementing their new advertising policy which eliminates pornographic and sexually explicit ads. In addition, it seems Google will also no longer link to sites that contain such materials, no matter how benign their advertising.

SURABAYA, Indonesia (AP) — Officials officially shut a massive prostitution complex in Indonesia's second-largest city on Wednesday amid protests by sex workers, who said their livelihoods were being destroyed.

A Cabinet minister and the governor of East Java attended the ceremony, where about 100 local figures signed a statement supporting the closure of one of Southeast Asia's largest red-light districts. About a thousand Muslims rallied at the Islamic Center to express their support.

Japan passes law banning possession of child pornography

(6/18/14 CNN)

In most of Japan, it's still legal to possess child pornography. Although production and distribution have been banned for 15 years, Japan lags behind other major developed nations in forbidding people from simply holding the sinister material.

That is about to change in a country regarded as a global nexus of child pornography. The country's upper house of parliament is expected to pass legislation this month making possession of it a crime punishable by up to a year in prison.

Children's rights activists have applauded the step, although their reaction is tempered with frustration that it has taken such a long time.

Israel Says It Foiled Hamas Plan For Massive Attacks on Israel, Coup Against PA

Times of Israel

Israel's Shin Bet security service said Monday it thwarted a Hamas coup attempt in the West Bank aimed at toppling Palestinian Authority President Mahmoud Abbas and starting a third intifada uprising.

The Shin Bet said it arrested more than 90 Hamas operatives in May and June, confiscated dozens of weapons that had been smuggled into the West Bank, and seized more than \$170,000 aimed at funding attacks. It produced photos of the confiscated weapons and cash and a flowchart of the Hamas operatives who had been questioned, and said they planned a series of massive attacks on Israeli targets, including the Temple Mount, in order to start a widespread conflagration. Indictments are expected to be filed against at least 70 of the suspects.

A Miracle in Israel! Clouds of Glory' Protected Us, Says Givati Brigade Commander

At the beginning of the Gaza campaign the Jerusalem Channel posted a prayer alert concerning an infantry brigade commander who was not ashamed to call his troops to prayer. His name is Col. Ofer Winter, a Givati Brigade commander, and we called for intercessory prayer support.

But now, here is a wonderful answer to our prayers: a “divine miracle” protected the soldiers under Winter’s command who are fighting in the Gaza Strip, according to a report quoted in The Times of Israel.

MIRACLE CONFIRMED BY IRON DOME COMMANDER: GOD MOVED MISSILE WE COULDN'T HIT

Israel's Iron Dome anti-missile system has been wildly successful during the current Gaza war, but on occasion it can and does miss incoming terrorist rockets.

One would think that the 10 percent or so of Hamas rockets predicted by Iron Dome's radars to hit populated areas that are not intercepted would still cause significant Israeli casualties. But somehow, they don't.

Hamas Coup Against Abbas Foiled

(8/18/14, Israel National News)

A large scale operation mounted from May to August by the IDF and Israel Security Agency (ISA or Shin Bet) foiled a Hamas network's plot to carry out a coup in the Palestinian Authority (PA) in Judea and Samaria.
until today.

The Hamas infrastructure in Judea and Samaria was controlled by a Hamas HQ in Turkey. The plot was to carry out a series of cruel terror attacks against Israel and create a situation of security instability, then take advantage of that situation to take over the PA.

Israel announced that 93 Hamas terrorists were arrested in the operation. Of these, 46 were taken to interrogation by the ISA. Hamas terror funds amounting to over 600,000 shekels (about \$170,000) were confiscated and weapons including 54 guns, 6 handguns and 7 RPGs were seized.

Miracle Reports Continue To Pour in of God's Supernatural Protection Over Israel As Missiles Flew In From Hamas

(8/27/14 BCN)

Undoubtedly, the Iron Dome missile defense system was the difference between devastation in Israel, and the incredible protection they experienced. But there were times when even Iron Dome was apparently going to come up short, and then something unexplainable (except for God) happened.

Healing Amid the Horror: Inspiring Stories Emerge From Iraq

Julie Oosterhouse (Aug 20, 2014)

Christian Aid Mission hears disturbing reports from Iraq, but they also hear inspiring stories about something much bigger.

"Norya is a Syrian refugee who got saved in a camp in Iraq. She lost five children and her husband when a rocket fired by Syrian government forces toward the terrorists landed on her house causing their death. She sings hymns with us at our church group meetings."

Norya's story is one of several sent to Christian Aid Mission by a native ministry leader working in the Kurdish region of Iraq. Those working with him spend the majority of their days sharing Christ with the destitute masses crowding the refugee camps.

Missionaries: 'Refugees In Iraq Turning To Christ Amid Islamic Attacks'

Native missionaries in Iraq say God is using them to spread hope and faith in Jesus Christ among thousands fleeing Islamic State militants, and many become Christians. "In a crisis like this, we are experiencing a time of revival and awakening everywhere," a mission leader said.

While many refugees demanded food, missionaries suggested that several asked for the 'Bread of Life'. "As they were going from tent to tent, Gospel workers came upon Abu Mustafa, a 50-year-old man who has three girls with cerebral atrophy and whose wife was killed. He was blaming God for his tragic situation, but allowed the workers to read the Bible to him and pray for him,"

"This is the first time I feel relief," Mustafa then said. "For three years, I couldn't smile or feel safe, but now I feel differently. I have peace in my heart. Please pray for my girls. I believe Jesus can heal them, and heal me, from the inside

Ryan Perry wrote in an email to Stars and Stripes. “While that review is under way, religious materials removed from Navy Lodge rooms will be returned.”

BREAKING: Shariah Law Gets BANNED by Alabama... Muslims Are Going Crazy

11/4/14 Conservative Tribune

Alabama voters were faced with a choice at the polls today, of whether or not they would allow for the possibility that they could one day find themselves facing a foreign code of laws inside of the court system of Alabama. Much to the dismay and outcry of liberals and Muslims across the state, even the country, Alabama voters have added an amendment to their Constitution that specifically bans the consideration of foreign codes of law, most notably Islamic Sharia Law.

Laws for Alabama Courts Amendment,” Amendment 1 relates to the application of foreign law during the legal process involving an Alabama citizen. Foreign law refers to the laws of other countries or cultures. Currently, judges or other legal authorities discern whether foreign law is applied. Amendment 1 would create constitutional protection that foreign law is not applied if it violates the guaranteed rights of Alabama citizens.”

VICTORY! TEXAS BOARD OF EDUCATION APPROVES NEW HISTORY TEXTBOOKS PROMOTING FAITH HERITAGE

Texas Board of Education has approved new history textbooks that students will use beginning next fall. In a partisan move, all 10 Republicans on the board voted to sanction 89 books and classroom software packages and all five Democrats on the board opposed the move. Barbara Cargill cited key passages that were retained, including one that explains the concept of a Biblical idea of a covenant and how it contributed to our Constitution. Another describes the influence of Moses and the 10 Commandments on legal systems throughout the world. Liberal activists and a group of 52 university professors protested the emphasis. A group of citizens that founded the non-profit Truth in Texas Textbooks Coalition (TTT) said it plans to publish a "report card" on all the textbooks to help parents and school boards identify which are the most accurate.

said individuals from eight other states have contacted TTT for information on its protocols regarding textbook review.

The Supreme Court also overturned a law by the State of Massachusetts that had created a “buffer zone” around abortion centers. Huge!

Michigan House Approves Religious Freedom Restoration Act Despite Opposition (12/7/14 Christian News)

The bill essentially mirrors the federal Religious Freedom Restoration Act, which was signed into law in 1993 by then-President Bill Clinton. However, as the law only applies on a federal level, the U.S. Supreme Court has urged states to enact their own RFRA to protect citizens.

“The free exercise of religion is an inherent, fundamental, and unalienable right secured by Article 1 of the state Constitution of 1963 and the First Amendment to the United States Constitution,” the proposed statute reads.

“[The Declaration of Independence] talks about how our right as human beings are not given to us by government, nor the Constitution, but by God,” declared Ohio Rep. Bill Patmon (D) earlier this year. “Protect what God has given you; that is the whole idea.”

30,000 deleted emails... Bill Whittle looks at the lawlessness, the arrogance, and the unmasked contempt that Hillary Clinton and Barack Obama have for the American people.

Hillary Rodham Clinton decided to conduct, for four years, the office of Secretary of State using her own private email server. Because these emails were not transacted and recorded through the official State Department servers, Mrs. Clinton “willfully concealed and removed” these critical documents from the records and archives of the United States Government.

This is right before she was intending to announce her run for president and inside sources say there are other things to be revealed as well.

Dozens of Muslims in Irving are upset after the city council passed a resolution in support of a new state house bill some Muslims believe targets their faith. Council members voted Thursday night on a resolution that support Texas HB 562, which forbids the use of foreign law and codifies the supremacy of U.S. and state law. Some Muslims in Irving believe the resolution is in reaction to a new Islamic Tribunal that is operating in the city. Judges had previously told community members their work is non-binding and they only deal with civil disputes like marriage. They also said U.S. and state laws supersede any decisions they make. "This bill does not mention at all Muslims, Shariah Law, Islam, even religion," said Mayor Beth Van Duyne. Mayor Beth Van Duyne said it is important to recognize the constitution and unite behind U.S. and Texas laws. "Respect them, obey them, embrace them," said the mayor.

Study: Abortions Declining in Almost all 50 States; Teen Pregnancies Also Down (6/8/15 BCN)

Fewer people are getting abortions in almost every state, according to a new Associated Press survey. Researchers found that abortions have declined in states where new laws make it harder to have them, as well as in states with few restrictions. Abortions have been down since 2010 with an overall drop of about 12 percent.

Pro-life advocates say the drop is due to a shift in attitudes, with more women choosing to carry their pregnancies to term. "There's an entire generation of women who saw a sonogram as their first baby picture," Charmaine Yoest, president of Americans United for Life, said. "There's an increased awareness of the humanity of the baby before it is born."

Lesbian Mayor Loses Transgender Ordinance Battle (7/28/15 BCN)

Morality wins. Houston 's lesbian mayor Anise Parker loses. Texas Supreme Court's decision Friday requires the City of Houston to either repeal or put to a vote a city ordinance that qualified for the ballot. City officials illegally kept the ordinance off the ballot. That ordinance is none other than the "bathroom bill" that would allow transgenders to use the restrooms of their choice: male or female.

Erik Stanley of Alliance Defending Freedom says public officials should not be allowed to run roughshod over the right of the people to decide these types of issues, especially when the citizens of Houston clearly met all the qualifications for having their voice heard.

That net gain slowed to 82 billion tons of ice per year between 2003 and 2008. (NASA study) In what appears to be a "major blow" to those sounding the alarm on climate change, a new study—from none other than NASA—has revealed that Antarctica's 'land ice mass' is not actually melting into the ocean. In fact, the continent appears to be growing. According to a Breitbart.com report, the NASA study showed that the "amount of ice lost by glaciers collapsing into the sea has been exceeded by the gain in ice mass from accumulated snow."

He promised to "not enforce" any federal rules that would hurt Kentucky's economy. "We will tell the EPA and other unelected officials who have no legal authority over us as a state, to pound sand," Bevin said. He said that the 10th Amendment to the Constitution is "one of the most powerful tools" at his disposal, because it states that power not expressly given to the federal government is reserved to states. He contested EPA's authority, and said its only recourse would be to take Kentucky to court. "The EPA, for example, they don't have an enforcement arm," Bevin said. "They use federal dollars. They use our own money. They bribe us with our own money to stick it to ourselves. And we will not do that anymore in the state of Kentucky."

US Supreme Court Blocks Obama Carbon Emissions Plan (2/9/16 Breaking Christian News)

The U.S. Supreme Court on Tuesday delivered a major blow to President Barack Obama by putting on hold federal regulations to curb carbon dioxide emissions mainly from coal-fired power plants, the centerpiece of his administration's strategy to combat climate change. The court voted 5-4 along ideological lines to grant a request by 27 states and various companies and business groups to block the administration's Clean Power Plan, which also mandates a shift to renewable energy away from fossil fuels. Rothschild Bank Now Under Criminal Investigation After Baron David De Rothschild Indictment (3/6/16 ActivistPost.com)

Last year, Baron David de Rothschild was indicted by the French government after he was accused of fraud in a scheme that allegedly embezzled large sums of money from British pensioners. It has taken many years to bring this case against Rothschild and his company the Rothschild Financial Services Group, which trapped hundreds of pensioners in a bogus loan scheme between the years of 2005 and 2008. One by one the pensioners lost their money and pressed charges against the notorious banker, beginning a case that would take many years to get even an indictment. In June, Paris-based liaison judge Javier Gómez Bermudez ruled that Rothschild must face a trial for his crimes, and ordered local police to seek him out in his various mansions that are spread throughout the country. "It is a good step in the right direction. The courts are now in agreement with us that there is enough evidence to interrogate Baron Rothschild. The first thing they will have to do is find him. Once they have done that they can begin to question him. It is a real breakthrough moment for everyone involved," lawyer Antonio Flores of Lawbird told the Olive Press after the ruling.

Lost Emails From Clinton Server Discovered

(3/25/16 1776coalition.com)

Conservative legal watchdogs have discovered new emails from Hillary Clinton's private email server dating back to the first days of her tenure as secretary of State. The previously undisclosed February 2009 emails between Clinton from her then-chief of staff, Cheryl Mills, raise new questions about the scope of emails from Clinton's early days in office that were not handed over to the State Department for record keeping and may have been lost entirely. Clinton's presidential campaign has previously claimed that the former top diplomat did not use her personal "clintonemail.com" account before March 2009, weeks after she was sworn in as secretary of State. But on Thursday, the watchdog group Judicial Watch released one message from Feb. 13, 2009, in which Mills communicated with Clinton on the account to discuss the National Security Agency's (NSA) efforts to produce a secure BlackBerry device for her to use as secretary of State.

State Dept. Admits Key Benghazi Email Withheld (4/27/16 WND)

Hillary Clinton's controversial email server – the focus of an FBI investigation – would have been revealed nearly two years ago, before she authorized the deletion of tens of thousands of emails, if the State Department would have turned over a key email in the Benghazi probe as required, according to the Washington watchdog Judicial Watch. Judicial Watch said the State Department admitted last week that it withheld the email, which was requested in a July 2014 Freedom of Information Act lawsuit seeking records related to the drafting and use of the administration's infamous Benghazi talking points. "Now we know the Obama administration consciously refused to give up key information about Hillary Clinton's email in 2014, said Judicial Watch President Tom Fitton. "The inspector general at the State Department has started a similar, parallel investigation to determine whether or not official acts were committed by Secretary of State Hillary Clinton and her staff in exchange for contributions to various Clinton Foundation initiatives," he added.

Donald Trump Beat Expectations Everywhere, Suggesting a Broad Shift (4/27/16 nytimes.com)

After just about every primary night this year, I've written something like "Donald J. Trump stayed on a narrow but clear path to the Republican nomination."

After Tuesday night, Mr. Trump has never had a wider path to a majority of pledged delegates.

He swept the Northeastern corridor by a huge margin, smashing any and all expectations based on primaries to date. He won a majority of the vote nearly everywhere, and even carried many of the places where he was expected to be weak — like Montgomery County, Md., or Greenwich, Conn., or Lancaster, Pa.

Smoking Gun! Hillary Knew Benghazi Attack Planned 10 Days In Advance

(5/18/16 WND)

Judicial Watch has obtained previously classified documents from the U.S. Department of Defense and the Department of State revealing that DOD almost immediately reported that the attack on the U.S. Consulate in Benghazi, Libya, was planned and carried out by al-Qaida and Muslim Brotherhood-linked terrorists. A federal court ordered the government hand over more than 100 pages of previously secret documents that showed then-Secretary of State Hillary Clinton and other senior Obama officials were given reports within hours of the Sept. 11, 2012, attack. In those memos, the DOD described details of a plan 10 days in advance “to kill as many Americans as possible.” The plans for attack had nothing to do with a provocative YouTube video by an obscure filmmaker, which the administration repeatedly blamed for the attacks. They had everything to do with terrorists from the “Brigades of the

BREAKING: House Panel Says Abortion Centers, Fetal Harvesting Company Violated Federal Law

(6/1/16 LifeSiteNews)

In two letters to the U.S. Department of Health and Human Services (HHS), Select Investigative Panel on Infant Lives Chair Rep. Marsha Blackburn detailed the panel's findings on Stem Express's cozy relationships with abortion facilities. The panel found that StemExpress employees had access to confidential patient health information—which they had no medically necessary reason to see and the abortion centers had no reason to disclose—in order to streamline their workflow and thus maximize profits. According to the Panel, StemExpress was allowed to use this confidential information to be matched up with patients whose aborted babies matched their fetal tissue demands. The letters indicate that StemExpress employees were working alongside abortion workers in ways that appear to conflict with regulations related to research on human subjects and federal privacy law.

BREAKING: Federal Judge Orders Obama To Release Docs About Hillary AND BILL (6/2/16 The Hill)

In a bombshell ruling certain to have both scandal-plagued presumptive Democrat nominee Hillary Clinton and President Barack Obama squirming, a federal judge has ordered the administration to hand over a selection of Clinton's email exchanges with a federal agency to the Republican National Committee.

According to The Hill, the ruling from Judge Ketanji Brown Jackson of the D.C. Circuit Court was in response to a Freedom of Information Act request filed by the RNC that sought communications between the U.S. Agency for International Development and those affiliated with the Clinton Family Foundation.

James Dobson: Donald Trump Has Accepted Christ (6/24/16 Charismanews.com)

Donald Trump, according to a new report, has accepted Jesus as his Lord and Savior...Dr. James Dobson, who was among the more than 900 evangelical faith leaders who met with the Republican presidential nominee-in-waiting in New York City, says it happened fairly recently. He also said he knew who led the businessman to Christ. "I don't know when it was, but it has not been long," Dobson told Godfactor's Michael Anthony in an exclusive interview. "I believe he really made a commitment, but he's a baby Christian. We all need to be praying for him, especially if there's a possibility of him being our next chief executive officer." "I think that he's open," he added. "He doesn't know our language, he really doesn't, and he refers a lot to religion and not much to faith and belief." To that, Anthony responded, "I imagine Saul, when he became Paul, didn't know the language, either..."

Authorities: UK Man Arrested at Rally Planned to Kill Trump (6/20/16 AP)

LAS VEGAS (AP) — A British man arrested at a weekend Donald Trump rally in Las Vegas tried to grab a police officer's gun so he could kill the presidential candidate after planning an assassination for about a year, according to authorities. U.S. Secret Service agents said Michael Steven Sandford approached a Las Vegas police officer at the campaign stop to say he wanted Trump's autograph, but that he then tried to take the weapon.

A complaint filed Monday in U.S. District Court in Nevada charges Sandford, 20, with an act of violence on restricted grounds. He was denied bail during a court appearance later in the day. His court-appointed attorney said he was living out of his car and in the country illegally after overstaying a visa.

Britain Votes to Leave E.U.; Cameron Plans to Step Down (6/23/16 NYT)

Britain has voted to leave the European Union, a historic decision sure to reshape the nation's place in the world, rattle the Continent and rock political establishments throughout the West. Not long after the vote tally was completed, Prime Minister David Cameron, who led the campaign to remain in the bloc...saying the country deserved a leader committed to carrying out the will of the people... the outcome stunned much of Britain, Europe and the trans-Atlantic alliance, highlighting the power of anti-elite, populist and nationalist sentiment at a time of economic and cultural dislocation.

“Dare to dream that the dawn is breaking on an independent United Kingdom,” Nigel Farage, the leader of the U.K.

Independence Party, one of the primary forces behind the push for a referendum on leaving the European Union, told cheering supporters just after 4 a.m.

David Cameron has resigned as Prime Minister, The Telegraph reports.

While England voted overwhelmingly for Brexit, Scotland and Northern Ireland backed Remain.

Brexit: Soros Defeated by Act of God

(6/24/16 Breitbart News)

Severe flooding hammering the UK on Election Day depressed British turnout enough to assure a victory for the “Brexit” from the European Union. George Soros had served as “The Puppet Master” of the E.U. “remain” campaign by mobilizing British elites to spread fear that a vote to “leave” would cause the pound to be devalued by 15 to 20 percent...Breitbart News on the eve of the vote predicted that an “Act of God” level storm system was about to wallop the UK and favor the Brexit. The worst of the day’s torrential rain storms and severe flooding hit hardest in Southeast England, which was expected to be the strongest area for the pro-remain vote. The chaos depressed the national vote to a turnout of just 72 percent, versus the approximately 80 percent expected in the days preceding the referendum. The bad weather did not deter “leave” voters, but meaningfully suppressed the “remain” vote

EIGHT COUNTRIES Now Threaten to Leave EU Following Britain's Lead (6/26/16 The Gateway Pundit)

The Brexit vote in Great Britain has sparked calls for other referendums. At least eight EU countries want to hold their own referendums to exit the European Union. It appears, just as we warned, that Brexit was indeed the first of many dominoes. Even before the Brexit result, a poll by Ipsos Mori showed that the majority of people in France and Italy want to at least have a referendum on leaving...Meanwhile, over 40% of Swedes, Poles, and Belgians are in the same boat.

But now, as Martin Armstrong notes, Brussels simply went too far. They cross the line moving from an economic union to a political subordination of Europe. Now eight more countries want to hold referendums to exit the EU – France, Holland, Italy, Austria, Finland, Hungary, Portugal, and Slovakia all could leave.

EU DOMINOES: Now Hungary Calls EU Referendum - Hungarian President Sets Date for Vote (7/5/16 Sunday Express)

In the wake of the UK's Brexit vote and the decision to leave the European Union (EU), the Hungarian President, Janos Ader, has ordered a nationwide referendum on October 2. The Hungarian people will be asked whether they want to accept any future European Union quota system for resettling migrants. The question will be: "Do you want the European Union to be entitled to prescribe the mandatory settlement of non-Hungarian citizens in Hungary without the consent of parliament?" ...The Hungarian Prime Minister Viktor Orban has fiercely opposed the EU's plans to relocate 160,000 migrants around the bloc by using mandatory quotas, but the scheme was approved by a majority of members. Mr Orban has said that the vote will give people a chance to stand up for Hungary's sovereignty.

Obama Whistleblower: Terror-Linked Muslim Groups Helping Set Policy, Costing Lives (Breitbart 7/6/16)

Last week I testified before the Senate Judiciary Subcommittee on Oversight, Agency Action, Federal Rights and Federal Courts at a hearing entitled, “Willful Blindness: Consequences of Agency Efforts To Deemphasize Radical Islam in Combating Terrorism.” I am a recently retired Customs & Border Protection (CBP) agent. I was named a Founding Member of the Department of Homeland Security (DHS) at its inception on March 01, 2003. During my 12 years serving inside DHS under two administrations, I witnessed a series of events which ultimately prompted me to become a whistleblower, releasing critical documents to Members of Congress as I felt necessary to comply with my oath to the Constitution... One example, on January 27-28, 2010 an ‘Inaugural Meeting’ occurred between American Muslim leaders and DHS Secretary Janet Napolitano, hosted by DHS CRCL. The Inaugural Meeting created controversy because it included a number of Islamic fundamentalist individuals and organizations.

Green party member, Derrick Packard says that this is the first time a local government has attempted to introduce a law against geoengineering. If you control the skies, you control life." As the city council seats with new members this year, notably controversial community activist ReINETTE Senum, first on the agenda according to City Hall insiders will be a declaration that Nevada City is a Chemtrail-free zone. This will make the rustic gold rush town the first in the nation to enact such a law

Convention Drama: Trump Campaign Stops Rules Rebellion (7/18/16 CNN)

Open discord and revolt broke out on the floor of the Republican National Convention Monday as GOP officials crushed an attempt to change party rules, a maneuver that could have embarrassed presumptive nominee Donald Trump...The dramatic scenes that unfolded around a normally routine procedure in passing the convention rules effectively turned into the last stand of party forces who had opposed the billionaire in the contentious Republican primary. Those holdouts were not trying to deprive Trump of the nomination -- in the knowledge they didn't have the votes.

Donald Trump's RNC Address Could Mark The Start of An American Revival

(7/21/16 NYPost)

Donald Trump needed to give the speech of his life. He did that, and much more. He laid out an inspiring American Manifesto for our troubled times...Most important, it keeps faith with his campaign themes of putting forgotten Americans first. In contrasting his view with his opponent's, the Republican nominee put it this way: "Americanism, not globalism, will be our credo." And "I am your voice." And then this: "There can be no prosperity without law and order." ...Trump's 2016 address could mark the start of a desperately needed American revival. As he said near the end, "America is back."

Wikileaks Proves Primary Was Rigged: DNC Undermined Democracy

(7/22/16 Observer)

20,000 freshly leaked emails reveal resentful disdain toward Sanders, as party favored Clinton long before any votes were cast. On July 25, the Democratic National Convention will begin in Philadelphia, Pa. To commemorate the event and its embrace of corrupt politician Hillary Clinton as the Democratic nominee, Wikileaks is releasing thousands of DNC/Clinton emails. In its recent leak of 20,000 DNC emails from January 2015 to May 2016, DNC staff discuss how to deal with Bernie Sanders' popularity as a challenge to Clinton's candidacy. Instead of treating Sanders as a viable candidate for the Democratic ticket, the DNC worked against him and his campaign to ensure Clinton received the nomination.

WikiLeaks Emails Show DNC Worked Against Bernie Sanders

(7/22/16 Breibart)

Today's WikiLeaks dump of over 19,000 emails from the Democratic National Committee has vindicated a longstanding complaint of Bernie Sanders — that the DNC actively worked against him and his campaign against Hillary Clinton. In one email, dated May 5, 2016, DNC Chief Financial Officer Brad Marshall suggested emphasizing Sanders' atheism, as the information would damage his image with Southern Baptists. It might make no difference, but for KY and WVA can we get someone to ask his belief. Does he believe in a God. He had skated on saying he has a Jewish heritage. I think I read he is an atheist. This could make several points difference with my peeps. My Southern Baptist peeps would draw a big difference between a Jew and an atheist.

Virginia's top court blocks order giving felons voting rights

(7/22/16 New York Post)

RICHMOND, Va. — Virginia's highest court has struck down Gov. Terry McAuliffe's executive order restoring voting rights to more than 206,000 felons. The Supreme Court of Virginia issued the ruling declaring the order unconstitutional late Friday afternoon. In a 4-3 decision, the court says McAuliffe overstepped his clemency powers. The executive order, issued in April, restored voting rights of felons who completed their sentences and also allowed them to run for public office, serve on a jury and become a notary public. Republican lawmakers filed a lawsuit challenging the order. The court ordered the state to cancel the registration of all felons under the order. More than 11,000 felons have registered to vote under the action.

WikiLeaks CONFIRMS Hillary Sold Weapons to ISIS...Then Drops Another BOMBHELL! Breaking News (8/7/16 Jack Smith News)

...Hillary Clinton and her State Department was actively arming Islamic jihadists, which includes the Islamic State (ISIS) in Syria. Secretary of State Hillary Clinton authorized the shipment of American-made arms to Qatar, a country beholden to the Muslim Brotherhood, and friendly to the Libyan rebels, in an effort to topple the Libyan/Gaddafi government, and then ship those arms to Syria in order to fund Al Qaeda, and topple Assad in Syria. Clinton took the lead role in organizing the so-called "Friends of Syria" (aka Al Qaeda/ISIS) to back the CIA-led insurgency for regime change in Syria. Under oath Hillary Clinton denied she knew about the weapons shipments during public testimony in early 2013 after the Benghazi terrorist attack. Wikileaks' Julian Assange is now stating that 1,700 emails contained in the Clinton cache directly connect Hillary to Libya to Syria, and directly to Al Qaeda and ISIS.

Texas Sends \$1.6 Million That Went to Planned Parenthood to Pro-Life Group to Help Women

(8/12/16 Life News)

Low-income Texas women are receiving a helping hand from a new program created with the taxpayer dollars that used to go to the abortion giant Planned Parenthood. Texas lawmakers kicked the abortion chain out of the program in 2011 and stopped it from receiving taxpayer dollars. Now, the funds are being used to provide quality health care to low-income women across the state.

The Heidi Group, a pro-life organization run by Carol Everett, is set to receive \$1.6 million from the new Healthy Texas Women program to help women in rural areas...Everett, a former abortion business owner and now a strong pro-life advocate, said many women in rural Texas do not have easy access to quality health care.

Former GOP Competitor Does 180 On Trump... “I Like What I See”

(8/27/16 Conservative Tribune)

Throughout the Republican presidential primary, a lot of bad blood built up between candidates — especially between the eventual nominee and South Carolina Sen. Lindsey Graham, who famously said, “Tell Donald Trump to go to hell” and “My party has gone bats*** crazy.” However, Graham seems to have been singing a different tune recently. “When it comes to Donald Trump, I like what I see,” Graham told WIS-TV, saying that the GOP nominee has been full of good surprises over the last few weeks. “He’s articulated a plan against ISIL that makes sense to me,” he explained. “He’s now talking about understanding the difference between a drug dealer and a grandmother as an illegal immigrant.

Trumpocrats PAC: Media Ignoring Hundreds of Thousands of Democrats Recruited for Trump (9/13/16 Breitbart.com)

Christian Rickers, executive director of Trumpocrats PAC, told Breitbart News Daily SiriusXM host Alex Marlow Tuesday, “We’ve got hundreds of thousands of Democrats who have switched registration in Ohio and Pennsylvania, several hundred thousand, and you don’t see those articles.”

Rickers claimed that despite the group’s successful efforts at recruiting hundreds of thousands of Democrats to support Republican nominee Donald Trump, they have been mostly ignored by a media far more interested in covering a handful of Washington-based Republicans unhappy with Trump as their nominee. He specifically discussed difficulties in getting any attention for his PAC’s efforts from television networks, such as MSNBC and CNN.

Trump Immigration Speech: A President Was Born on Wednesday (9/1/16 Fox News)

Donald said, “We will have an ideological certification for immigrants that Makes sure that those who are admitted to our country love our values and love our people”. America, we were introduced to our next president on Wednesday night. He’s not a politician. He is one of a kind. He is an American. Welcome President Donald J. Trump. I’m a cynical Jewish Ivy Leaguer from New York. Nothing gets me too excited. I don’t believe politicians. Nor do I believe in politicians. I don’t fall for theatrical political productions. I don’t believe rhetoric or propaganda. And I’ve never teared up over a political speech in my life. Until now. Wednesday night I found myself fist-pumping. I found myself chanting along with the crowd “USA, USA, USA.” And as the procession of mothers and fathers came up to the podium to state the name of their child -- who was murdered by illegal immigrants -- and then say “I’m voting for Trump” or “Trump is our last chance to save America” I found myself tearing up. And the amazing thing is... I couldn't stop. The tears rolled down my face. This speech in Arizona was the game-changer.

Evangelicals, Once Skeptical Of Trump, Have Rallied To His Side

(9/27/16 fivethirtyeight.com)

In February, in an interview on the day they (Chris and Kimarie Nickels) voted in the state's Republican primary, both made an emphatic point of saying they had refused to vote for Donald Trump....but Trump easily won the South Carolina primary, and exit polls showed that among born-again or evangelical Christians, he beat the second-place candidate, Cruz, by 6 percentage points, a pattern that held true in much of the United States. Since then, his popularity among white evangelical Republicans has grown significantly, and now the group is one of his strongest bases of support. According to a June survey by the Pew Research Center, 94 percent of them would vote for Trump over Clinton in November.

Trump Won the Third Debate

(10/19/16 Washington Post)

Donald Trump won tonight's debate. He didn't implode, he didn't blither, he didn't continually interrupt Hillary Clinton and he didn't even sniff much. And, frankly, he had the best retorts and one-liners. Clinton was on her heels much of the night, and several times, she had to reset by resorting to tired, hollow platitudes — which only drove home the point that she lacks authenticity and appears to be a typical politician who is therefore dishonest. That said, Clinton was an able, informed politician, but Trump — for the first time — appeared to be a worthy opponent.

The fact is this is a change election, and Clinton is not the change candidate. People don't really want to vote for her, and tonight, she didn't give them much of a reason to do so.

Today May Go Down As One Of The Most Important In American History: Native Americans Repent for Rejecting the Gospel

(10/21/16 Rick Joyner)

Very few may even know that anything special happened. Jesus even said that the kingdom came "without observation," or unnoticed. Some of the greatest things happen that way, and only a very few who have their eyes open, and are looking in the right direction, see them. So what is happening today that is so special? One Thousand North American Indian Tribes from the U.S. and Canada are sponsoring a special ceremony on the Mall in Washington to forgive the U.S. Government for all of its broken treaties. In Scripture, breaking a vow or treaty brings a curse on the land, and the U.S. Government broke every treaty it made with the Native American Tribes. Chief Negiel Bigpond, the primary coordinator for this event, told me that they were going to forgive the U.S. whether we asked for it or not, simply because they do not want our country to suffer the consequences of this any longer. This is one of the most noble acts of true Christian charity I have ever heard of by any people group.

Trump's 'Gettysburg Address' a 'Contract with American Voter'

(10/22/16 teaparty.org)

(Daily Mail) – Donald Trump planted a flag on hallowed ground Saturday morning by laying out near the Gettysburg National Battlefield what he would do in his first 100 days as President of the United States. Touting 'the kind of change that only arrives once in a lifetime,' Trump told an audience of about 300 invited guests that he will 'drain the swamp' in Washington, replacing the current government 'with a new government of, by and for the people.' The symbolism factor was high, with a campaign aide telling reporters Friday night that the Civil War battle in Gettysburg memorialized by President Abraham Lincoln in 1863 'was the moment when the war turned.'

NSA whistleblower says DNC hack was not done by Russia, but by U.S. intelligence

(8/1/16 The Duran)

On Aaron Klein's Sunday radio program, "Aaron Klein Investigative Radio" (broadcast on New York's AM 970 The Answer and Philadelphia's NewsTalk 990 AM), US government whistleblower William Binney threw his hat into the DNC hack ring by stating that the Democratic National Committee's server was not hacked by Russia but by a disgruntled U.S. intelligence worker. The motivation of the hacker...concern over Hillary Clinton's disregard of national security secrets when she used a personal email and consistently lied about it. Binney was just getting started with revelations we are sure no mainstream media news site will dare to cover. The "Putin did it" fairytale is just too easy for the sheep to follow. Binney also proclaimed that the NSA has all of Clinton's deleted emails, and the FBI could gain access to them if they so wished. No need for Trump to ask the Russians for those emails, he can just call on the FBI or NSA to hand them over.

After Years of War in Syria, U.N. Passes Resolution on Talks

(12/18/15 New York Times)

UNITED NATIONS — For the first time since the nearly five-year-old Syrian civil war began, world powers agreed on Friday at the United Nations Security Council to embrace a plan for a cease-fire and a peace process that holds the distant prospect of ending the conflict.

A resolution adopted unanimously by the Security Council reflected a monthslong effort by American and Russian officials, who have long been at odds over the future of Syria, to find common national interests to stop the killing, even if they cannot yet agree on Syria's ultimate future.

Hacked Soros Memo: \$650,000 to Black Lives Matter

(8/16/16 Breitbart)

George Soros's Open Society Institute viewed the 2015 Baltimore unrest following the death of Freddie Gray as opening a "unique opportunity" to create "accountability" for the Baltimore police while aiding activists in reforming the city, according to hacked documents reviewed by Breitbart Jerusalem.

The documents further confirm that the Open Society last year approved \$650,000 to "invest in technical assistance and support for the groups at the core of the burgeoning #BlackLivesMatter movement."

Dark Lord: Hacked Documents Reveal Magnitude Of George Soros's Domestic Influence (8/24/16 Breitbart)

Reviews of the more than 2,500 documents hacked from the servers of George Soros's Open Society Foundations highlight the undue influence the billionaire financier exerts domestically, from attempting to remake the American electorate to successfully lobbying for changes in U.S. immigration policy to funding initiatives targeting local police forces.

China's Yuan Faces Long March to Challenge Dollar After SDR

(9/26/16 bloomberg.com)

The yuan's journey toward challenging the dollar as a global reserve currency is only just beginning. The yuan will join the International Monetary Fund's Special Drawing Rights this Saturday, marking a milestone in China's efforts to build a currency that reflects the country's economic and political sway. The SDR, created in 1969, gives IMF member countries who hold it the potential right to obtain any of the currencies in the basket -- currently the dollar, euro, yen and pound -- to meet balance-of-payments needs. Inclusion could be a catalyst for central banks and sovereign wealth funds to shift funds into the yuan. Yet the size of SDRs are small relative to global reserves, while the Chinese currency's international appeal is being dented by suspected state intervention and tougher capital controls. The yuan constituted 1.1 percent of official reserves in the latest IMF survey, compared with 63.7 percent for the dollar.

Haitian President Exposes Clinton Foundation: "Hillary Clinton Tried To Bribe Me!"

(9/18/16 Zerohedge)

Former Haitian President of Senate is speaking out to tell the truth about Clinton Foundation at a Trump event! The former president said that Clinton was trying to buy him. She tried to appeal to him (bribe him). She defrauded the people of Haiti...

"I spent 4 hours with Bill Richardson to tell Bill Clinton not to invade Haiti. A week later the embassy called me and told me that Bill Clinton has a messenger for him. He came and told me to sign with Bill Clinton, join his movement and Clinton will make me the richest man in Haiti. I told him he is a principled man and I will not sell out...A week later, Clinton revoked my visa."

He just challenged Trump to ask Hillary Clinton to publish the audit of all the money they have stolen from Haiti in 2010.

'There's no good answer': Podesta Leaks Show Clinton Campaign Stumped by Email Server Debacle (10/26/16 RT)

The latest tranche of emails from the account of John Podesta, Hillary Clinton's campaign chair, has been released by WikiLeaks. With the whistleblowing site promising the release of around 50,000 emails from Podesta, Wednesday's dump brings to 33,042, the number of messages published by WikiLeaks so far. "There is just no good answer," Clinton aide Philippe Reines tells Podesta in a panicked mail from March 2015 in which they discuss Clinton's reasoning for using a private email server. The mail is sent to Podesta after New York Times columnist Thomas Friedman mailed Clinton aide Anne-Marie Slaughter saying, "I have to say I am troubled by what I have read about what Hillary did."

Resignation letters piling up at FBI

(10/30/16 WND)

In an article for Britain's Daily Mail, bestselling author Ed Klein reports some of Comey's top deputies were in on the mutiny, "The atmosphere at the FBI has been toxic ever since Jim announced last July that he wouldn't recommend an indictment against Hillary," said the source, who Klein says has known Comey for nearly 20 years and spends family outings together.

"Some people, including department heads, stopped talking to Jim, and even ignored his greetings when they passed him in the hall," said the source. "They felt that he betrayed them and brought disgrace on the bureau by letting Hillary off with a slap on the wrist." "He's been ignoring the resignation letters in the hope that he could find a way of remedying the situation," said the source, according to Klein.

CNN parts ways with Donna Brazile after debate questions were provided to Clinton

(10/31/16 aol)

CNN has severed ties with Donna Brazile, the chairwoman of the Democratic National Committee and a longtime contributor on the network, after hacked emails revealed Brazile provided questions in advance to Hillary Clinton's campaign during the Democratic primary debates on CNN...

"CNN never gave Brazile access to any questions, prep material, attendee list, background information or meetings in advance of a town hall or debate. We are completely uncomfortable with what we have learned about her interactions with the Clinton campaign while she was a CNN contributor," said a network spokesperson in a statement.

Black Leaders to Their Voters: ‘We Won’t Allow Ourselves to Be Used’ by Democratic Party (11/6/16 Breitbart)

Leaders of the black church in America are urging African American voters to abandon the Democratic Party once and for all as Election Day approaches. In new videos released today, Rev. William Owens and his wife Dr. Deborah Owens of the Coalition of African American Pastors say the relationship between the black community and Democrats in America is “one-sided.” “As someone who wants to see our community grow stronger and more prosperous, and who wants to see family and faith respected and preserved, I find that the Democratic Party no longer has room for me,” says Rev. Owens. “I realized that my relationship with the Democrats was completely one-sided. They asked for everything – support, votes, loyalty. And gave nothing in return.”

Clinton's FBI Email Probe Was Almost Certainly A Cover-Up

(10/26/16 Daily Caller)

The Wall Street Journal recently uncovered an enormous conflict of interest pertaining to one of the FBI agents who participated in Hillary Clinton's email investigation. The latest news in what is almost certainly a cover-up involves campaign donations to the wife of an FBI agent (nearly \$500,000) originating from a Virginia governor currently under FBI investigation. Even more incriminating is the latest WikiLeaks email from Cheryl Mills to Podesta reading "we need to clean this up — he has emails from her — they do not say state.gov." When the president is implicated in Hillary Clinton's "extremely careless" and "negligent" handling of classified intelligence, the likelihood of an FBI cover-up increases exponentially.

Clinton E-mails Show George Soros Gave Sec of State Foreign Policy Marching Orders

(8/16/16 Breitbart.com)

A series of message within the September 2015 State Department dump of Hillary Clinton e-mails show the Secretary of State of the United States received direct orders over U.S. foreign policy from none other than Hungarian-American billionaire George Soros.

Soros – who for years has been suspected of pulling the strings behind Clinton as well as dozens of foreign policy and open borders groups – appears to have sent a message through his “special advisor” Jonas Rolett.

Rolett, who is listed as “Special Advisor to the Chair” on Soros’s Open Society Foundations website, sent a message to then-State Department official Richard Verma.

Clinton Ally Aided Campaign of FBI Official's Wife (10/24/16 Wall Street Journal)

The political organization of Virginia Gov. Terry McAuliffe, an influential Democrat with longstanding ties to Bill and Hillary Clinton, gave nearly \$500,000 to the election campaign of the wife of an official at the Federal Bureau of Investigation who later helped oversee the investigation into Mrs. Clinton's email use.

Campaign finance records show Mr. McAuliffe's political-action committee donated \$467,500 to the 2015 state Senate campaign of Dr. Jill McCabe, who is married to Andrew McCabe, now the deputy director of the FBI.

Hidden Camera Video Shows Democrats Sent Agitators To Trump Rallies

(10/17/16 The Daily Caller)

Operatives working for the Democratic National Committees sent agitators to Donald Trump rallies in an attempt to cause violence — an effort that was supported by the Hillary Clinton campaign.

The revelation comes from a hidden camera video released Monday by activist James O’Keefe and an email released by Wikileaks. In the video, liberal activists who say they are in contact with the Clinton campaign claim responsibility for violent events which have occurred so far this election.

Rigged Debates: Wikileaks Emails Confirm Media in Clinton's Pocket

(10/14/16 Observer)

Clinton's people asked for all sorts of special treatment from the DNC and the press—and they got it. On October 12, WikiLeaks released part four and five of Clinton campaign Chair John Podesta's emails, with part six to be released on October 13, and part seven to follow on October 14. "As soon as the nomination is wrapped up, I will be your biggest surrogate," current Interim Chair of the Democratic National Committee (DNC) Donna Brazile, wrote to Podesta in a January 2016 email. As a Vice Chair of the DNC, Brazile was bound to neutrality per the charter, but as shown in several emails released so far, that was not the case. "I pushed back hard on this, and Axe. So weird to attack the kids the night before the first primary," Brazile wrote in an email she forwarded to Podesta about what CNN was doing while she served as a CNN contributor.

Why Historians Must Use Wikileaks To Write The History Of The 2016 Election

(10/27/16 Forbes)

The Wikileaks releases of emails from inside the Hillary Clinton campaign, the Democratic National Committee, and other Clinton-related entities have one thing in common with the Soviet transcripts I studied: Both data bases were created under the strong presumption that their contents would never be disclosed. That apparently was the purpose of Clinton's so-called homebrew server. Hence, we are granted, in both cases, the rare opportunity to understand how things actually worked in the candid and unguarded words of those who ran the system.

‘How to Commit Voter Fraud on a Massive Scale’: Part II of Project Veritas Investigation into Clinton Network

(10/18/16 Breitbart)

The second video in James O’Keefe’s Project Veritas investigation of the 2016 election reveals what O’Keefe describes as “Democratic Party operatives tell[ing] us how to successfully commit voter fraud on a massive scale.” Like O’Keefe’s first video, the second also prominently features Democratic operatives Robert Creamer and his colleague Scott Foval, who was removed from his position at the leftwing advocacy group Americans United for Change on Monday as a result of O’Keefe’s investigation. O’Keefe notes that at the time the second video was shot, Foval “worked for People for the American Way, an organization funded in large part by George Soros.” In the video, Foval is heard saying, “We manipulated the vote with money and action, not with laws.”

The Donald's Right, Hillary's 200,000 Upstate New York Jobs Plan Was A Bust

(8/9/16 Forbes)

Donald Trump was entirely correct in his speech last night when he said that Hillary Clinton's plan for 200,000 new jobs in Upstate New York, a promise made when she was running to be Senator, was a complete and total bust. From which we can draw two lessons. One is that campaign promises quite possibly shouldn't be taken seriously but then everyone except the children knows that one. The other is that government actions simply isn't one of those things which creates jobs. Government action can prevent jobs from being created, sure, that's possible, but the way that jobs are created is that entrepreneurs find a way to make something that people want. And, crucially, are willing to pay for. Thus we should always be very leery indeed about any job creation claims other than the ones which promise to get government out of the way of the entrepreneurs.

BREAKING: New DNC Leaks Blow Hillary's Health and Obama's Corruption Wide Open

(9/15/16 USApoliticsnow.com)

The new leaks show that Obama operated a “pay to play” scheme for ambassadorships and other positions and also imply that Hillary has a life-threatening condition called sinus thrombosis, helped create ISIS, and was responsible for the death of Americans in Benghazi. The new leaks show that Obama operated a “pay to play” scheme for ambassadorships and other positions and also imply that Hillary has a life-threatening condition called sinus thrombosis, helped create ISIS, and was responsible for the death of Americans in Benghazi....The DNC leaks, realized by hacker Guccifer 2.0, have already brought tremendous embarrassment and added scrutiny to the DNC, which has since struggled to recuperate popular legitimacy. The DNC, in an effort to divert attention from its criminal actions, has sought to refocus public attention on Russia.

Texas Vote Glitch Forces Change To Paper Ballots

(10/25/16 breitbart.com)

Chambers County election officials have executed an emergency protocol to remove all electronic voting machines available during early voting until a software update can be completed to correct problems experienced by straight-ticket voters. Chambers County Clerk Heather Hawthorne told Breitbart Texas Tuesday morning that all electronic voting was temporarily halted until her office completes a “software update” on ES&S machines that otherwise “omit one race” when a straight ticket option is selected for either major party. The Texas 14th Court of Appeals race was reported to be the contest in which voters commonly experienced the glitch.

DC Leak Exposes Top Clinton Donor George Soros Manipulating Elections

(8/15/16 Observer)

One of Hillary Clinton's biggest donors, billionaire George Soros, has been exposed in a massive hack for manipulating elections in Europe via his non-government organizations. DC Leaks revealed more than 2,500 files from Soros' groups, most notably the Open Society Foundations. The leaks are especially concerning for Americans given Soros' close relationship to former Secretary of State Clinton. So far this election cycle, the billionaire investor has donated over \$25 million to Clinton and other Democratic Party members, with more expected before November. Soros has also funded Media Matters, founded by David Brock, who operates on behalf of Clinton in several dubious capacities—like running the Correct the Record SuperPAC, which hires Internet trolls to spread pro-Clinton ideologies on the Internet.

Soros, Leader of the Liberal Empire – New Emails Reveal His Control in the Clinton

Campaign (8/27/16 DennisMichaelLynch.com)

WikiLeaks has unleashed another flood of emails showing Soros was the VIP to be pleased by all Clinton aides and team members, almost at any cost. A new batch of John Podesta emails show Clinton was advised to do fundraisers and profiting events for one simple reason: to make Soros “happy.” Example 1: On Oct. 7, 2014, top aide Huma Abedin wrote an email to campaign manager Robby Mook that Soros is expecting Clinton to appear at a fundraiser for America Votes, a liberal Soros-funded organization. “I would only do this for political reasons (ie to make Soros happy),” Mook replied. Example 2: On Jan. 23, 2011, Soros wrote a specifically scripted email to Clinton regarding a “a serious situation” in Albania, claiming certain actions needed to be done “urgently.” He suggested appointing a mediator, Miroslav Lajcak. The next day, Lajcak met Albanian leaders for a mediation effort.

Donald Trump Protester Speaks Out: “I Was Paid \$3,500 To Protest Trump’s Rally”

(10/25/16 abcnews.com)

For months now, rumors have circulated the Internet that individuals were being paid to protest at rallies held by presidential hopeful Donald Trump. Today a man from Trump’s rally in Fountain Hills, Arizona back in March has come forward to say that he was paid to protest the event. “I was given \$3,500 to protest Donald Trump’s rally in Fountain Hills,” said 37-year-old Paul Horner. “I answered a Craigslist ad about a group needing actors for a political event. I interviewed with them and got the part.”

Poll: Paul Ryan's Approval Collapses, More GOP Voters Say Trump Best Represents Their View Of The Party

(10/21/16 townhall.com)

Justin wrote about the hostile reception to Speaker Of The House Paul Ryan from Trump supporters at a rally in Green Bay, Wisconsin. Chants of “Paul Ryan sucks” were shouted, but is this an isolated incident? That is, is this just a representation of Trump supporters from the local area? No— not really. The latest polling shows that support for Ryan has collapsed, sinking 28 points...in a week. The YouGov poll had some interesting points concerning Ryan, Trump, and the brewing tensions that seem bound to erupt in civil war once this election is over.

discriminating against church

(10/17/16 WND)

A \$290,000 settlement has been reached in a Florida church's years-long case against a city for refusing permission to build a sanctuary.

The Church of Our Savior in Jacksonville Beach had been holding meetings in a rented wooden chapel, local restaurants and members' homes. Members bought land for a permanent meeting site, but city officials refused permission, citing the character of the neighborhood. A court eventually ruled that the city, under federal law, must allow the church to use the land it bought. And now the Alliance Defending Freedom has announced an agreement in which the city must pay "\$290,000 in attorneys' fees and expenses the church incurred to defend its constitutionally and legally protected freedoms."

George Soros -- The Hillary Democrats' Billionaire Puppetmaster? (10/15/16 Investors Business Daily)

Influence: A massive hack of socialist billionaire George Soros' Open Society Foundations suggests that his various nonprofit organizations are little more than fronts for his many political activities. His growing closeness to Democratic presidential candidate Hillary Clinton should be a warning to all.

The hack by a group called DC Leaks, includes 2,576 files from various Soros groups from 2008 to 2016. The DC Leaks website says the attack was "launched by American hacktivists who respect and appreciate freedom of speech, human rights and government of the people." Apart from the ease with which the Soros group's computer system was breached, what we're learning so far fills in the troubling details of how Soros goes about his business. No doubt, in coming days, more revelations will emerge as researchers comb through the thousands of documents. But what's emerged so far is eye-opening. In one of the purloined memos from 2011, titled "Extreme Polarization and Breakdown in Civil Discourse," a nonprofit Soros group proposes conducting opposition research on a number of highly prominent American critics of radical Islam, including Pamela Geller, Frank Gaffney and Robert Spencer. It also targeted conservative activists and intellectuals David Horowitz, Daniel Pipes, Cliff May and former Vice President Dick Cheney's daughter, Liz Cheney. All of them are strongly pro-Israel and have warned about the threat of radical Islam.

Why Prophetic Voices Say the Nation Shifted

on Oct. 21 (10/26/16 Steve Rees)

Some prophetic voices believe the nation shifted, spiritually, Oct. 21, 2016, on what may go down as one of the most important days in American history. Largely unnoticed, 1,000 Native American Indian tribes from the United States and Canada collectively forgave the U.S. government for breaking treaties with their ancestors during a public ceremony on the National Mall. The National Day of Prayer for First Nations, held near the Washington Monument, included intercessory petitions, proclamations and declarations of forgiveness by leaders from All Tribes D.C., a fellowship of Christians representing 1,000 American Indians from the U.S. and Canada. A full-blooded Euchee (Yuchi) Indian, Negiel Bigpond coordinated the first-ever national prayer gathering of Native Americans in the nation's capital. Dr. Billy Graham, is a prophetic voice who believes that forgiveness by Native Americans might be part of a spiritual awakening within the nation. "The Native American has been a sleeping giant," Graham writes. "He is awakening. The original Americans could become the evangelists who will help win America for Christ. Remember the forgotten people."

Clinton ally gave \$500K to wife of FBI agent on email probe

(10/24/16 New York Post)

Virginia Gov. Terry McAuliffe, a longtime Clinton confidant, helped steer \$675,000 to the election campaign of the wife of an FBI official who went on to lead the probe into Hillary Clinton's use of a private email system, according to a report.

The political action committee of McAuliffe, the Clinton loyalist, gave \$467,500 to the state Senate campaign of the wife of Andrew McCabe, who is now deputy director of the FBI, according to the Wall Street Journal.

The report states Jill McCabe received an additional \$207,788 from the Virginia Democratic Party, which is heavily influenced by McAuliffe.

Judicial Watch Is Suing The FBI For Records About Bill Clinton's Secret Meeting With Loretta Lynch

(10/29/16 townhall.com)

Government watchdog Judicial Watch has issued a Freedom of Information Act Lawsuit against the FBI demanding the release of documents surrounding the secret July meeting between former President Bill Clinton and Attorney General Loretta Lynch. The meeting took place on Lynch's private plane at Sky Harbor Airport in Phoenix and lasted for more than 30 minutes. That secret meeting, which was first revealed by a local reporter, came just days before Director James Comey announced former Secretary of State Hillary Clinton would not face indictment after a year long criminal investigation into her mishandling of classified information and use of an unsecured private email server to conduct all of her State Department business.

Breaking – Hillary Just Got Politically Assassinated: Wikileaks Just Released Her Full Isis Donor List With Names!

(10/29/16 USAPoliticsToday.com)

Barack Hussein Obama and Hillary Clinton are the founders of ISIS. We have proven that through emails and documents leaked from WikiLeaks, but liberal media outlets still refuse to cover it. After all, they are still more focused on what Trump said eleven years ago than what Hillary has actually done. Because of brave patriots like Julian Assange, we have been given more evidence that Hillary Clinton is more connected to ISIS than we originally believed. An email was leaked between Clinton and John Podesta indicating that: “Western intelligence, US intelligence and sources in the region” to accuse Qatar and Saudi Arabia of “providing clandestine financial and logistic support to ISIL [or ISIS] and other radical Sunni groups in the region.”

Clinton Now Least Favorable Candidate, ABC Poll Finds

(10/31/16 Daily Caller)

Democratic nominee Hillary Clinton passed Republican nominee Donald Trump as the least favored candidate, according to an ABC/Washington Post tracking poll published Monday.

Sixty percent of voters rated Clinton as “unfavorable,” with 49 percent of likely voters reporting they held a “strongly unfavorable” view of Clinton. Trump didn’t fare much better, but the Republican nominee is traditionally viewed less favorably to Clinton in previous polling. Fifty-eight percent of voters reported they held an “unfavorable” view of Trump, and 48 percent reported a “strongly unfavorable” view of the Republican nominee.

Letter: It's ignorant to vote for Hillary Clinton without reading WikiLeaks (11/2/16 The Denver Post)

Those voting for Hillary Clinton, defending Clinton and supporting Clinton without reading the information reported by WikiLeaks are intellectually no different than those who criticize climate science without ever having read the science. In short, if you defend Clinton and ignore WikiLeaks, you have something in common with Sarah Palin. Let that sink in for a moment. Finished processing that? Now process this — if the journalists responsible for reporting on Watergate were labeled “Russian sympathizers,” charged by the media as “attempting to influence an election,” and banned from travel or communication access, how would history judge the event? This is exactly what has happened to Julian Assange, who has done more for journalism than any of these corporate-owned, brand-named media products have done this election cycle. Either you support access to information or you have a problem with an informed public. Which side are you on?

Clinton directed her maid to print out classified materials

(11/6/16 New York Post)

As secretary of state, Hillary Clinton routinely asked her maid to print out sensitive government emails and documents — including ones containing classified information — from her house in Washington, D.C., e-mails and FBI memos show. But the housekeeper lacked the security clearance to handle such material. In fact, Marina Santos was called on so frequently to receive e-mails that she may hold the secrets to E-mailgate — if only the FBI and Congress would subpoena her and the equipment she used. Clinton entrusted far more than the care of her D.C. residence, known as Whitehaven, to Santos. She expected the Filipino immigrant to handle state secrets, further opening the Democratic presidential nominee to criticism that she played fast and loose with national security.

ACLJ Files Lawsuit Over AG Lynch's Secret Meeting with Bill Clinton – Will Hold Obama's Justice Department Accountable (11/2/16 ACLJ)

I told you about the Obama Justice Department's incompetence and corruption when, over four months ago, I called for Attorney General Loretta Lynch's resignation. I told you about General Lynch's decision to hold a secret meeting on her airplane with former President Bill Clinton – just days before the FBI interviewed his wife, the former Secretary of State, as part of a criminal investigation; and just days before General Lynch announced the former Secretary of State would not be indicted. Here's what I said in June: Misconduct. Dishonesty. Impropriety. No matter what word you choose, Attorney General Lynch's secret meeting with former President Bill Clinton was flat-out wrong. She's clearly disqualified from participating in the investigations into former Secretary of State Clinton's private email server. And she must resign. I'm leading our senior litigation team preparing to file legal demands and ethics complaints. If the DOJ doesn't respond and she doesn't resign, we'll be back in federal court.
